

**National University of Ireland, Galway**

**School of Mathematics, Statistics and Applied Mathematics**

**Lecturer** (above the bar) in Statistics

**Lecturer** (above/below the bar) in Statistics

Applicants are invited for these two lecturing positions in Statistics. The successful candidates will contribute to teaching and supervision at undergraduate and postgraduate levels, undertake relevant administrative duties and contribute to the research profile of the School. Candidates should have a PhD in Statistics awarded. Excellent teaching ability is required and appropriate lecturing experience at University level is desirable. Ideally candidates should have experience of applying for research funding and have been involved in course design and development.

For appointment at above the bar level, post-doctoral experience with a track record of publications in peer-reviewed journals is required along with lecturing experience. The successful candidate for the above the bar only position should have interests in the area of statistical modelling, including smoothing and random effects models. The School runs full degree programmes in both the College of Science and the College of Arts, Social Sciences and Celtic Studies and is also the major contributor to the denominated degrees in Mathematical Science/Computer Science and in Financial Mathematics & Economics. At the postgraduate level the School has active masters' and PhD programmes. It also provides service courses in the Science, Engineering and Informatics, and Commerce Faculties.
